How did they make Ireland's modern day Book of Kells?
Great Books of the Western World is a series of books originally published in the United States in 1952, by Encyclopædia Britannica, Inc., to present the Great Books in a 54-volume set. The original editors had three criteria for including a book in the series: the book must be relevant to contemporary matters, and not only important in its historical context; it must be rewarding to re-read; and it must be a part of "the great conversation about the great ideas", relevant to at least 25 of the
