Social and ethical issues are present in everything we do. No matter how large or small the scale of your work, or how major or minor the impact, the people you engage with will have views about the social and ethical issues raised by your research. The chances are that many of those views will differ significantly from your own.

Ethics is categorized according to three types of inquiry or study: normative ethics, meta-ethics, and descriptive ethics. The first approach, normative ethics, is an attempt to decide or prescribe values, behaviors, and ways of being that are right or wrong, good or bad, admirable or deplorable. When using the method of nor-
