In February 1782, England opened its newspapers to read the details of a criminal conversation trial in which the handsome baronet Sir Richard Worsley attempted to sue his wife's lover for an astronomical sum in damages. In the course of the proceedings, the Worsleys' scandalous sexual arrangements, voyeuristic tendencies, and bed-hopping antics were laid bare. The trial and its verdict stunned society, but not as much as the unrepentant behavior of Lady Worsley. Sir Joshua Reynolds captured the brazen character of his subject when he

today—home to the lost, the vagrant and the noctambulant. Matthew Beaumont recounts an alternative history of London by focusing on those of its denizens who surface on the streets when the sun's down. If nightwalking is a matter of "going astray" in the streets of the metropolis after dark, then nightwalkers represent some of the most suggestive and revealing guides to the neglected and forgotten aspects of the city. In this brilliant work of literary investigation, Beaumont shines a light on the shadowy perambulations of poets, novelists and thinkers: Chaucer and Shakespeare;

We discover how the nocturnal city has inspired some and served as a balm or narcotic to others. In each case, the city is revealed as a place divided between work and pleasure, the affluent and the indigent, where the entitled and the desperate jostle in the streets. With a foreword and afterword by Will Self, *Nightwalking* is a captivating literary portrait of the writers who explore the city

In *Eating the Empire*, Troy Bickham unfolds the extraordinary role that food played in shaping Britain during the long eighteenth century (circa 1660–1837), when such foreign goods as coffee, tea, and sugar went from rare luxuries to some of the most ubiquitous commodities in Britain—reaching even the poorest and remotest of households. Bickham reveals how trade in the empire's edibles underpinned the emerging consumer economy, fomenting the rise of modern retailing, visual advertising, and
