Universal in nature, these truths will speak to readers from various lifestyles and of all ages. Readers will recognize the book as a story of

looking for love in all the wrong places, but will also see in it a process of discovery--both internal and external. In the aftermath of his lover's death, Brown turns to prostitutes for companionship, for relieving repressed sexual energy, and even for love. Through his unique relationships with three young men, he

Once he goes outside his social and intellectual circle, he acquires a new perspective on life and

Readers of *Against My Better Judgment* will gain a different perspective on the complexities of love, relationships, fidelity, human nature, and the hardships of life inevitably faced by all humans--straight, gay, or bisexual. Gay men, lesbians,

Beginning with the national elections carried out during Israel's war on Gaza in 2008-09, which

In this book Eric W. Gritsch, a Lutheran and a distinguished Luther scholar, faces the glaring ugliness of Martin Luther's anti-Semitism head-on, describing Luther's journey from initial attempts to proselytize Jews to an appallingly racist

position, which he apparently held until his death. Comprehensively laying out the textual evidence for Luther's virulent anti-Semitism, Gritsch traces the development of Luther's thinking in relation to his experiences, external influences, and theological convictions. Revealing greater impending danger with each step, Martin

Luther's Anti-Semitism marches steadily onward until the full extent of Luther's racism becomes apparent. Gritsch's unflinching analysis also describes the impact of Luther's egregious words on subsequent generations and places Luther within Europe's long history of anti-Semitism. Throughout, however, Gritsch

resists the temptation either to demonize or to exonerate Luther. Rather, readers will recognize Luther's mistakes as links in a chain that pulled him further and further away from an attitude of respect for Jews as the biblical people of God. Gritsch depicts Luther as a famous example of the intensive struggle with the enduring

Political Judgment by New York Times bestselling author Philip Tetlock has established itself as a contemporary classic in the literature on evaluating expert opinion. Tetlock first discusses arguments about whether the world is too complex for people to find the tools to understand political phenomena, let alone predict the

future. He evaluates predictions from experts in different fields, comparing them to predictions by well-informed laity or those based on simple extrapolation from current trends. He goes on to analyze which styles of thinking are more successful in forecasting. Classifying thinking styles using Isaiah Berlin's

prototypes of the fox and the hedgehog, Tetlock contends that the fox--the thinker who knows many little things, draws from an eclectic array of traditions, and is better able to improvise in response to changing events--is more successful in predicting the future than the hedgehog, who knows one big thing, toils devotedly within one

tradition, and imposes formulaic solutions on ill-defined problems. He notes a perversely inverse relationship between the best scientific indicators of good judgement and the qualities that the media most prizes in pundits--the single-minded determination required to prevail in ideological combat. Clearly written and

Impeccably researched, the book fills a huge void in the literature on evaluating expert opinion. It will appeal across many academic disciplines as well as to corporations seeking to develop standards for judging expert decision-making. Now with a new preface in which Tetlock discusses the latest research in the field,

Are the producers' powers of persuasion so great that resistance is futile? James Twitchell counters this assumption of the used and abused

consumer with a witty and unflinching look at commercial culture, starting from the simple observation that "we are powerfully attracted to the world of goods (after all, we don't call them 'bads')." He contends that far from being forced upon us against our better judgment, "consumerism is our better judgment."

Why? Because increasingly, store-bought objects are what hold us together as a society, doing the work of "birth, patina, pews, coats of arms, house, and social rank" previously done by religion and bloodline. We immediately understand the connotations of status and identity exemplified by the Nike swoosh, the Polo

The consumption of goods, according to Twitchell, provides us with tangible everyday comforts and with crucial inner security in a seemingly faithless age. That we may find our sense
