~~An Introduction To The Environmental~~

At a general level, it is clear that the environmental crisis affects everybody, and threatens the survival of the human race as a whole. However, even though the environmental crisis is a global threat, working class people are those most severely affected by it. We are the ones that have to do the dangerous jobs that cause environmental degradation and live in areas damaged by pollution, while those with money can afford to move elsewhere.

~~Environment: an introduction~~

Environmental problems are often dealt with retrospectively, after the damage has been done and at great cost. By introducing environmental considerations as part of the culture and overall management strategy it will help achieve effective environmental management without the sense that there has been an extra burden.
