Chapter 4 Service Industry An Overview

Introduction. In 1270 the agricultural sector dominated economic output, dwarfing the industrial and service sectors. By 1870, notwithstanding an eightfold expansion of agricultural output, this situation had been reversed and industry and services were the fastest-growing and largest sectors.

Industrial and service-sector production (Chapter 4 ...

High transport costs, non-tariff barriers, and the implementation of carbon taxes gave rise to a major push towards self sufficiency, primary production, and a strong service industry. As the population had continued to grow, so did the need for more energy and this led to rapid advancement in sustainable energy technologies.
