Collaborative learning is a spectrum of instruction that involves small groups of students who have been assigned an academic goal. At one end of the spectrum are transient groups that may be formed to quickly generate some ideas for immediate in-class discussion (e.g., “buzz” groups).

Three Approaches to Cooperative Learning in Higher Education

In higher education, interest in cooperative learning has gained momentum since the early 1980s, and this kind of teaching and learning can be conducted in many ways. The purpose of this study is to provide an overview of existing evidence pertinent to cooperative learning.

Unravelling Cooperative Learning in Higher Education...

Experienced users of cooperative learning demonstrate how they use it in settings as varied as a developmental mathematics course at a community college, and graduate courses in history and the sciences, and how it works in small and large classes, as well as in hybrid and online environments.

Cooperative Learning in Higher Education

Since cooperative learning has been suggested to promote deep approach to learning among higher education students, theories of deep approach to learning at the university level will be reviewed, followed by a discussion of the congruence between these theories and cooperative learning principles.

COOPERATIVE LEARNING IN HIGHER EDUCATION A STUDY OF THE ...

cooperative learning in higher education in the way this study does. Students prefer to learn in an environment of cooperative learning than in a traditional one because they participate more and they feel more implicated in their own education.

An Approachment to Cooperative Learning in Higher ...

Collaborative learning potentially promotes deep learning, in which students engage in high-quality social interaction, such as discussing contradictory information (Visschers-Pleijers et al., 2006). In science education, a deep-learning approach is crucial for understanding concepts and complex processes (Van Boxtel, 2000).

Collaborative Learning in Higher Education: Evoking ...

The tradition of cooperative learning in higher education can be traced back thousands of years ago, when the Talmud recommended using “learning partners” to understand the legal codes and when Socrates engaged students in the “art of discourse” (Johnson, Johnson & Smith, 1998). Today’s cooperative learning involves students working in groups to accomplish shared learning goals (Johnson & Johnson, 1999).
