Differently Wired is a radical book. It is also a deeply humane and practical resource for parents raising twice exceptional kids. An outgrowth of Debbie Reber's TiLT Parenting community, this book distills her vision for a world in which "differently wired" children can be accepted and celebrated for their unique qualities.

~~Differently Wired: Raising an Exceptional Child in a ...~~

By Deborah Reber. Hot off the press, this book is a must read for any family raising the one in five child who is differently wired. This was an easy read and I found the heartfelt words both instructional and inspirational. Part one of the book details the story of Reber's son Asher and explains the various differently wired diagnosis of ADHD, dyslexia, Aspergers, giftedness, anxiety, and sensory processing disorder.

Differently Wired will inspire you to be a better parent, whether or not you have an atypically wired child. Listen to Sunshine Parenting Ep. 111: Raising an Exceptional Child in a Conventional World

Today millions of kids are stuck in a world that doesn't respect, support, or embrace who they really are—these are what Deborah Reber is calling the “differently wired” kids, the one in five children with ADHD, dyslexia, Asperger's, giftedness, anxiety, sensory processing disorder, and other neurodifferences. Their challenges are many. But for the parents who love them, the challenges are just as hard—struggling to find the right school, the right therapist, the right parenting group while feeling isolated and harboring endless internal doubts about what's normal, what's not, and how to handle it all. But now there's hope. Written by Deborah Reber, a bestselling author and mother in the midst of an eye-opening journey with her son who is twice exceptional (he has ADHD, Asperger's, and is highly gifted), Differently Wired is a how-to, a manifesto, a book of wise advice, and the best kind of been-there, done-that companion. On the one hand it's a book of saying NO, and how it's time to say no to trying to fit your round-peg kid into society's square holes, no to educational and social systems that don't respect your child, no to the anxiety and fear that keep parents stuck. And then it's a book of YES. By offering 18 paradigm shifts—what she calls “tilts”—Reber shows how to change everything. How to “Get Out of Isolation and Connect.” “Stop Fighting Who Your Child Is and Lean In.” “Let Go of What Others Think.” “Create a World Where Your Child Can Feel Secure.” “Find Your People (and Ditch the Rest).” “Help Your Kids Embrace Self-Discovery.” And through these alternative ways of being, discover how to stay open, pay attention, and become an exceptional parent to your exceptional child.

It's time to say NO to trying to fit square-peg kids into round holes, and YES to raising them from a place of acceptance and joy. Today millions of kids are stuck in a world that doesn't embrace who they really are. They are the one in five “differently wired” children with ADHD, dyslexia, giftedness, autism, anxiety, or other neurodifferences, and their challenges are many. And for the parents who love them, the challenges are just as numerous, as they struggle to find the right school, the right support, the right path. But now there's hope. Differently Wired is a revolutionary book—weaving together personal stories and a tool kit of expert advice from author Deborah Reber, it's a how-to, a manifesto, and a reassuring companion for parents who can so often feel that they have no place to turn. At the heart of Differently Wired are 18 paradigm-shifting ideas—what the author calls “tilts,” which include how to accept and lean in to your role as a parent (#2: Get Out of Isolation and Connect). Deal with the challenges of parenting a differently wired child (#5: Parent from a Place of Possibility Instead of Fear). Support yourself (#11: Let Go of Your Impossible Expectations for Who You “Should” Be as a Parent). And seek community (#18: If It Doesn't Exist, Create It). Taken together, it's a lifesaving program to shift our thinking and actions in a way that not only improves the family dynamic, but also allows children to fully realize their best selves. “In this generous and urgent book, Deborah Reber lets the light in. She helps parents see that they're not alone, and even better, delivers a positive action plan that will change lives.” Seth Godin, author of Linchpin “Differently Wired will help parents of children who think differently to accept their child for who they are and facilitate their successful development.” Temple Grandin, author of Thinking in Pictures and The Autistic Brain

It's time to say no to trying to fit square-peg kids into round holes, and yes to raising them from a place of acceptance and joy. A how-to, a manifesto, and a wise and reassuring companion for parents of neuroatypical children, who often feel that they have no place to turn, Differently Wired offers 18 paradigm-shifting ideas—what the author calls “tilts”—that will change everything, including how to Get Out of Isolation and Connect, how to Help Your Kids Embrace Self-Discovery, and how to Show Up and Live in the Present. And though these “tilts,” how to stay open, pay attention, and become an exceptional parent to your exceptional child.

From helping each other at school to sharing a special play date, Blue and Magenta do lots of fun things together as best friends. Features rebuses.

The future of our society depends on our gifted children—the population in which we’ll find our next Isaac Newton, Albert Einstein, or Virginia Woolf. Yet the gifts and talents of some of our most brilliant kids may never be recognized because these children fall into a group known as twice exceptional, or 2e. Twice exceptional kids are both gifted and diagnosed with a disability—often ADHD or an Autism Spectrum Disorder—leading teachers and parents to overlook the child’s talents and focus solely on his weaknesses. Too often, these children get lost in an endless cycle of chasing diagnostic labels and are never given the tools to fully realize their own potential. *Bright Not Broken* sheds new light on this vibrant population by identifying who twice exceptional children are and taking an unflinching look at why they’re stuck. The first work to boldly examine the widespread misdiagnosis and controversies that arise from our current diagnostic system, it serves as a wake-up call for parents and professionals to question why our mental health and education systems are failing our brightest children. Most importantly, the authors show what we can do to help 2e children, providing a whole child model for parents and educators to strengthen and develop a child’s innate gifts while also intervening to support the deficits. Drawing on painstaking research and personal experience, *Bright Not Broken* offers groundbreaking insight and practical strategies to those seeking to help 2e kids achieve their full potential. Diane M. Kennedy, author of *The ADHD-Autism Connection*, is a longtime advocate, international speaker/trainer, and mother of three twice-exceptional sons. Rebecca S. Banks, M.A., co-author of *The ADHD-Autism Connection*, is a veteran educator, national speaker/trainer, and mother of two twice-exceptional children. Temple Grandin, Ph.D., is a professor, prolific author, and one of the most accomplished and renowned adults with autism in the world.

In *Love Off-Limits*, Natalie has the perfect boyfriend, or so everyone thinks. But Natalie knows she wants more. When she discovers that more equals Matt, her boyfriend’s best friend, Natalie finds herself in quite the dilemma.

Raising a gifted child is both a joy and a challenge. Gifted and exceptional children can seem self-sufficient, but it takes more than intelligence to lead a happy and fulfilling life. Your child needs your support and advocacy in school, in social situations, and even at home. This guide shows you how to encourage and foster your gifted child from birth to adolescence, including information on How to determine if your child is gifted Options for school programs and activities Dealing with perfectionism and stress Setting realistic and healthy goals for your child Ensuring proper socialization and friendship Coping with jealousy and bullying from other children Packed with useful and professional advice, this is a reassuring guide to help your gifted child grow, thrive, and develop his talents.

WINNER! Mom's Choice Gold Award for parenting books -- Mom's Choice Awards: The best in family-friendly media "My kid is smart, but..." It takes more than school smarts to create a fulfilling life. In fact, many bright children face special challenges: Some are driven by perfectionism; Some are afraid of effort, because they're used to instant success; Some routinely butt heads with authority figures; Some struggle to get along with their peers; Some are outwardly successful but just don't feel good about themselves. This practical and compassionate book explains the reasons behind these struggles and offers parents do-able strategies to help children cope with feelings, embrace learning, and build satisfying relationships. Drawing from research as well as the authors’ clinical experience, it focuses on the essential skills children need to make the most of their abilities and become capable, confident, and caring people.

You're a caring mother of boys, part of the "boy mom" phenomenon—now learn how to raise your son to be compassionate, empathetic, and emotionally intelligent with this parenting guide made just for you. Raising a boy, also known as being a "boy mom," is tough in today's culture. We want our sons to grow into strong men who will stand up for what's right and take care of those they love, but we also want them to share their thoughts, show their feelings, and express emotions in appropriate ways. At its core, we need to teach our boys empathy. That's where emotional intelligence comes in. Boys need to understand what they're feeling in any given situation and be able to regulate themselves accordingly. In this first-ever book combining emotional intelligence with parenting specific to boys, boy moms will learn how to help their sons: - identify and name their emotions - develop empathetic listening skills - nurture positive and lasting relationships with others - tackle life with a growth mindset - use strategies like mindfulness to regulate their emotions With *Raising Resilient Sons*, parents will be equipped with the tools they need to build up their sons into the men they know they can be—men who look for the good, spread kindness, react with empathy, and lead with strength and resilience.

Blue learns to spell her name and finds other words that begin with her favorite letters: B, L, U, and E. Features rebuses.
