Book Description. Digital Russia provides a comprehensive analysis of the ways in which new media technologies have shaped language and communication in contemporary Russia. It traces the development of the Russian-language internet, explores the evolution of web-based communication practices, showing how they have both shaped and been shaped by social, political, linguistic and literary realities, and examines online features and trends that are characteristic of, and in some cases specific

#tmp: Digital Russia The Culture Language and Politics of ...

Russia's 160 ethnic groups speak some 100 languages. According to the 2002 census, 142.6 million people speak Russian, followed by Tatar with 5.3 million and Ukrainian with 1.8 million speakers. Russian is the only official state language, but the Constitution gives the individual republics the right to make their native language co-official next to Russian.
