Isabella Wallace and Leah Kirkman's Engagement is a carefully curated collection of experts' insights on the theme of teacher and learner engagement, which as they ably demonstrate can be facilitated and encouraged in a number of ways. The Best of the Best series brings together for the first time the most influential voices in education in a format that is concise, insightful and accessible for teachers. Keeping up with the latest and best ideas in education can be a challenge as can putting them into practice but this highly acclaimed series is here to help. Each title features a comprehensive collection of brief and accessible contributions from some of the most eminent names in education from around the world. In this third volume, Wallace and Kirkman explore the core concept of engagement an essential facet of effective learning both for learners and for teachers and share practical, realistic, cross-curricular and cross-phase strategies to make the most of these important insights. Engagement, whether of the teacher or the learners, can't be compelled and will always be contingent on the complexities of motivation. Indeed, it could be argued that it is teacher engagement which is the key to successful learning. Such engagement can be facilitated by encouraging professional dialogue between staff, or it may be that the school's high expectations alone could encourage in its teachers a sense of professional empowerment. But how do we recognise learner engagement, and what can we do to encourage it? From this compendium of expert voices emerge three important themes: that teachers' engagement and positive example should be seen as a prerequisite for establishing learner motivation; that learners' interest needs to be actively engaged, whether by meaningful challenge or by tapping into their natural curiosity; and that an expectation of appropriate behaviour must precede expectations of engagement. In this volume you will find many practical suggestions of ways to apply these ideas both in the classroom and in the staffroom. Each contributor has provided a list of further reading so you can dig deeper into the topic and, in addition, the Teacher Development Trust offer their advice on how to plan effective CPD and responsive changes to practice based on the contributors' suggestions. Contributors include: Sir Tim Brighouse, Dr Bill Rogers, Vic Goddard, Sue Cowley, Richard Gerver, Andy Cope, Professor Bill Lucas, Ian Gilbert, Professor Susan Wallace, Andy Griffith, Dr Debra Kidd, Conrad Wolfram, Paul Dix, John Davitt, Phil Beadle, Mike Gershon and Professor Mick Waters. Suitable for all educationalists, including teachers and school leaders.

In Dear Life, palliative care specialist Dr. Rachel Clarke recounts her professional and personal journey to understand not the end of life, but life at its end. Death was conspicuously absent during Rachel's medical training. Instead, her education focused entirely on learning to save lives, and was left wanting when it came to helping patients and their families face death. She came to specialize in palliative medicine because it is the one specialty in which the quality, not quantity of life truly matters. In the same year she started to work in a hospice, Rachel was forced to face tragedy in her own life when her father was diagnosed with terminal cancer. He'd inspired her to become a doctor, and the stories he had told her as a child proved formative when it came to deciding what sort of medicine she would practice. But for all her professional exposure to dying, she remained a grieving daughter. Dear Life follows how Rachel came to understand—as a child, as a doctor, as a human being—how best to help patients in the final stages of life, and what that might mean in practice.

Whoever said happiness was a pursuit wasn't kidding. We search high and low, spend money we may or may not have, engage in all kinds of behaviors for good and ill, and still come up short in the happiness department. Happiness becomes a destination we're supposed to teach, but we never seem to get there. If happiness is a destination, who has the directions? In Happy for the Rest of Your Life, Dr. Gregory Jantz will use scriptural truths and personal examples to teach, enlighten, encourage, and motivate as he explains: * Our misconceptions about what happiness is and where to find it * Dead ends on the road to happiness * Why God is really the author of "Don't Worry, Be Happy"
