American Honda recently threw a coming out party for the all-new VTR1000F Super Hawk, inviting the U.S. moto-press to the bash. The event's backdrop was the picturesque wine country of Temecula, California, and its maze of gnarly, tight and twisting back roads proved the perfect venue to show off, as one Honda engineer put it, the Super Hawk's "lively personality."

The general setup is common to all Hondas, but there are some small differences. The photos here are of the conversion done to my VTR1000F (Firestorm) or also known in other countries as the SuperHawk 996, but it should be similar for all Hondas. The photos here were taken by myself while carrying out this modification.

The 2002 VTR1000F Firestorm is a nifty move Honda made to adapt the brutal RC51 to the street. With power and torque now delivered in a more friendly, predictable manner, this bike makes a more usable city machine. When Honda released the VTR1000F Firestorm in 1997, it couldn't have imagined such global popularity. Built to cash in on the sales and race success of Ducati's 916 during the 1990s, the Firestorm configuration represented a massive shift from Honda's tried-and-true four-cylinder sports offerings.

Strange Encounters is a novel made up of three short stories. Each character is faced with an unexplainable situation. "The Lost Souls" of I-95 takes place in a rural town. A young girl and her father are killed on I-95 by a drunk driver that has been covered up by the North Carolina Highway Patrol to protect one of their own during the summer of July 3, 1986. The highway then becomes haunted by the two lost souls, who won't rest until justice is served. But twenty years later, a young highway patrolman comes along and is put to the test to solve the mystery.

This book represents a fresh and informative approach to the subject of motorcycles. In handy pocket-sized form, it chronicles 75 of the world's greatest machines.

Few paint a more vivid or varied picture of the joys of riding than this collection of stories from a motorcycling life by Lance Oliver, who has

spent more time than most of us thinking about and writing about the art and practicalities of motorcycling.
