(PDF) Sociological Perspectives on Identity Formation: The ...

Late modern social theorists have developed a particular sociological perspective on selfhood in ' new times ' (Beck 1992; Giddens 1991). A generally held assumption of late modernity suggests that identity matters more now because we have more choice. It could be argued that in previous generations we had identities waiting-for -us.

Open Research Online

Sociologists today employ three primary theoretical perspectives: the symbolic interactionist perspective, the functionalist perspective, and the conflict perspective. These perspectives offer sociologists theoretical paradigms for explaining how society influences people, and vice versa.

Three Major Perspectives in Sociology

By seeing the world through the sociological lens, it's possible to explain social behavior. The three major sociological perspectives are the symbolic, functionalist and conflict perspectives. Each theory helps one gain a better understanding of what shapes a person's life and social interactions. The Symbolic Perspective
