Oracle Database Database Installation Guide, 19c for Linux
Veritas supports two media server installation methods: either the NetBackup installation script or the native UNIX and Linux installers. The NetBackup installation script is the standard installation method and is recommended for new users. The native UNIX and Linux installers are potentially more difficult and require additional steps.

CA Workload Automation Agent for UNIX, Linux, or Windows SAS provides a script (`setuid.sh`) with which to set certain SAS installation files with `setuid` permissions and root ownership. The `setuid.sh` script must be run as root in order to complete successfully. You have three options for running `setuid.sh`: Set up `sudo` for the SAS Installer before running the deployment wizard.
