ISO—ISO 9606-1:2012—Qualification testing of welders—  
ISO 9606-1 was prepared by Technical Committee ISO/TC 44, Welding and allied processes, Subcommittee SC 11. Qualification requirements for welding and allied processes personnel. This second edition cancels and replaces the first edition ( ISO 9606-1:1994 ), which has been technically revised.

ISO 9606-1:2012(en), Qualification testing of welders—  
ISO 9606-1 has been cited in the Official Journal of the European Union as harmonised with the Pressure Equipment Directive (PED), with effect from 1 March 2018. This FAQ gives a quick summary of the transition between the standards for welder qualification BS EN 287-1 and BS EN ISO 9606-1 and provides recommendations on how to apply them.

BS EN 287-1 and BS EN ISO 9606-1 for welder qualification —  
The previous welding qualification of BS EN 287-1 has now been replaced by the latest offering, EN ISO 9606-1. This new qualification is very similar to the older 287-1 but has evolved to take care of a few loose ends that came about as a result of the EN 1090 rules governing the welding and erecting of structural stuff (see separate article).
