Black Square isn't technically a monochrome, as it depicts a specific figure—a black shape—on a white background. Yet it still suggests the potency present in a simple block of color, relying on the black/white contrast to raise questions about presence, absence, signs, and symbols. In the mid-20th century, artist

American artist Reinhardt (1913–1967) is known for his monochromatic paintings (1950s) portraying red and blue rectilinear shapes against a background of a similar hue as well as his later large black pieces. He aimed for the purity of abstraction and creation of paintings that do not reflect life. Group Zero (Group 0 or just Zero)

Monochrome Painting: Definition (Art Glossary)

A monochromic image is composed of one color. The term monochrome comes from the Ancient Greek: ??????????, romanized: monochromos, lit. 'having one color'. A monochromatic object or image reflects colors in shades of limited colors or hues. Images using only shades of grey are called grayscale or black-and-white. However, scientifically speaking, monochromatic light refers to visible light of a narrow band of wavelengths.
