Identity, Performance and Technology: Practices of ...

It would be a missed opportunity for performance studies to defer the analysis of these matters to other fields. As strong as the tendency to sidestep technology is, or to restrict it to a supplemental role, there has long been a counter-tendency that seeks actively to incorporate technology into performance—the so-called intermedial practices.

Performance and Technology

Practices of Empowerment, Embodiment and Technicity. Usually dispatched within 3 to 5 business days. Usually dispatched within 3 to 5 business days. This project investigates the implications of technology on identity in embodied performance, opening up a forum of debate exploring the interrelationship of and between identities in performance practices and considering how identity is formed, de-formed, blurred and celebrated within diverse approaches to technological performance practice.
