Point shooting—also known as target- or threat-focused shooting, instinctive aiming, instinctive firing, and instinctive shooting—is a method of shooting a firearm quickly and accurately that does not rely on the use of the sights in close quarter, life-threatening situations where there is the greatest chance of being killed. Close-quarters fighting makes it difficult to apply proper marksmanship techniques, which is why point shooting advocates a less sighting-based style of shooting ...

Point shooting - Wikipedia

The question of point shooting seems to be a hard one, as Suarez defends aimed fire by giving what seems to be almost the same rationale as point shooters use when defending their point of view. In the end, I would give this book 4 ½ stars, if it were possible.

Tactical Pistol Marksmanship: How to Improve Your Combat ...

AIMED Point Shooting or P&S is a very simple, fast, and accurate method of shooting. P&S can be learned with little or no training, and maintained with minimal practice. HOW TO P&S, OR POINT AND SHOOT. You just grab your gun, place your index finger along its side, point at a target, and pull the trigger with your middle finger.

Pistol Marksmanship Aimed Point Shooting Or P S

Step two is to set up a target appropriate for the game being shot and engage it from a holstered draw. Be sure to work for both speed and front-sight focus. Quickly find that front “shotgun bead” sight. Start at 3 yards, and then gradually increase the target distance. This will tell you just how far you can make point shooting work for you.
