Although we have used Ruby for scripting jobs, most of the time we use it as a general-purpose programming language. We've used it to write GUI applications and middle-tier server processes, and we're using it to format large parts of this book. Others have used it for managing server machines and databases.

A jukebox with one song is  
unlikely to be popular (except  
perhaps in some very, very scary  
bars), so pretty soon we'll have to  
start thinking about producing a  
catalog of available songs and a  
playlist of songs waiting to be  
played.
