assurance that research ethics committee approval is in place where needed codes of practice/organisational guidance that state personal identifiers are only used on a 'need to know' basis. Data Protection Officers need to work with existing information systems governance and research governance functions, to ensure that organisational systems take account of the assurances that are already in place for managing research.

**Safeguards – Health Research Authority**  
Data Protection (if required) If you are proposing to collect personal data i.e. data from which a living individual can be identified you must be registered with the UCL Data Protection Officer before you submit your ethics application for review. If the Data Protection Officer advises you to make changes to the way in which you propose to collect and store the data this should be reflected in your ethics application form.
