A firmware has been released for the DVR4-1200 (with VGA port). This firmware's primary purpose is to increase password security and address the sudden change of Network Type to PPPoE.. **DISCLAIMER:** If you did not previously update your system and you apply the update now, there is the potential that an already compromised system will fail. Swann cannot be held liable for this circumstance.

---

## DVR4-1200 (with VGA port) Firmware Release - Swann

The advanced video codec used by the DVR4-1200, called H.264, offers high quality video files at a fraction of the size of older video codecs such as MPEG-2 or similar. Basically, this means you can get store more footage on the DVR ' s hard drive, and that the quality of that footage can be significantly higher than many older video formats.
