For all students and lecturers of basic engineering and technical drawing The new edition of this successful text describes all the geometric instructions and engineering drawing information, likely to be needed by anyone preparing or interpreting drawings or designs. There are also plenty of exercises to practise these principles.

Manual by acclaimed artist contains the best information available on pencil and ink techniques, including 28 step-by-step demonstrations – many of them in full color.

Draw 50 Flowers, Trees, and Other Plants shows artists of all levels how to draw with ease by following simple, step-by-step examples. Celebrated author Lee J. Ames shows you how to create a lush garden of roses, orchids, cacti, and a variety of fruit, as well as forests of towering firs, sequoias, and weeping willows. Ames's drawing method has proven successful for children and adults of all ages over the past forty years. The twenty-nine books in the Draw 50 series have sold more than 5 million copies and have shown artists from beginning to advanced levels how to draw everything from animals to airplanes. It's easy to grow your own garden when it's done the Draw 50 way.
