The Two Cultures Controversy: Science, Literature and ...

The Two Cultures Controversy examines the notorious argument between the scientist-turned-novelist C. P. Snow and the literary critic F. R. Leavis during the 1960s. Rather than beginning with the assumption that their quarrel represented a conflict between disciplines, I consider their public arguments, and recover their private efforts, so as to recover the broader positions into which their ideas about science and literature fit.

The Two Cultures Controversy: Science, Literature and ...

The Two Cultures Controversy provides a full and persuasive account of Snow's public roles during his years of fame and a thoughtful exploration of the ramifications of the debate surrounding his celebrated lecture. On these grounds, it will be of considerable value to cultural, educational and political historians of the period, as well as of interest to a wider readership curious about the origins and continuing significance of a famous phrase.

Unlike many books, the contents of Martin Parr's runaway hit Boring Postcards (1999) get a withering write-up on the publisher's website. ¶They are¶, it says, ¶

Two Cultures Controversy: Science, Literature and Cultural ...

On 7 th May 1959, the physicist and author C. P. Snow (Charles Percy Snow 1905-1980), then fifty-three years old and a former research chemist and more recently a top civil servant and best-selling novelist, delivered the annual Rede Lecture in the Senate House of the University of Cambridge. Its title - "The Two Cultures and the Scientific Revolution" - referred to a gulf of mutual incomprehension and a mutual lack of sympathy and appreciation that Snow identified as having grown up ...

The Two Cultures Controversy Science Literature And ...

"The Two Cultures" is the first part of an influential 1959 Rede Lecture by British scientist and novelist C. P. Snow which were published in book form as The Two Cultures and the Scientific Revolution the same year. Its thesis was that science and the humanities which represented "the intellectual life of the whole of western society" had become split into "two cultures" and that this division was a major handicap to both in solving the world's problems.

The Two Cultures Controversy: Science, Literature and ...

It is one of history's small but delicious coincidences that in 1882, nearly eighty years before C. P. Snow's Rede Lecture, Arnold was chosen for that honor. His Rede lecture¶Literature and Science¶was itself a kind of ¶two cultures¶ argument. But his point was essentially the opposite of Snow's.

¶The Two Cultures¶ today | The New Criterion

In the Rede lecture of 1959, C.P.Snow speaks in terms of two cultures, one of science, the other of literary intellectuals. Snow's discussion presupposes that science represents a culture of its own, independent of and superior to the arts and humanities, and unified within itself. At our present distance from this claim, Snow's point of view

THE TWO CULTURES It is about three years since I made a sketch in print of a problem which had been on my mind for some time. ¶ It was a problem I could not avoid just because of the circumstances of my life. The only credentials I had to ruminate on the subject at all came through those circumstances, through nothing more
